

ONLY PLATFORM IS 'GOLDEN RULE'

Sheriff McCullough Advocate of Fair Treatment to All

SINCERE IN METHODS

Still Clings to Belief That There Is Some Good in the Worst of Us

"Do ye unto others as ye would that others should do unto you."

That admonition, which is the Bible condensed into one concise paragraph, is the platform and the creed of W. M. McCullough, Tulsa county's sheriff.

Oklahoma has been the scene of many amazing changes within recent eventful years. The spurred and snarled cowboy and the murderous hand of frontier days have faded and merged into the rushing tide of civilization and development.

And with them has gone the spectacular two-gun frontier sheriff who preferred to capture law violators dead rather than alive, and who measured his success as an officer by the number of notches on his gun.

Faith in Humanity.

In Tulsa county he has been succeeded by the "golden rule" sheriff—for that appellation, strictly fits Sheriff McCullough. Despite his intimate associations with confirmed crooks and desperate criminals, he has not lost faith in humanity. He still clings to the belief that there's good in the worst of us—and bad in the best of us—and that there is hope of eventual reformation in all law violators, but those who have determinedly passed the turning point in criminality and who boldly refuse to change their ways.

Two many officers become cynical after a brief association with the criminal element. It becomes their duty occasionally to take into custody their personal friends whom they had believed were law-abiding citizens. Little wonder the officers sometimes wonder who can be trusted and who cannot.

Yet throughout his career as a law enforcement officer, Sheriff McCullough has not changed his estimate of human nature. He is the same "Bill" today that he was 10 years ago. It would be folly to estimate the influence of his office on the community. Some of them may not approve his treatment of crooks and criminals—perhaps they condemn it as too lenient.

Honesty Unquestioned.

But they are unanimous in agreeing that he is sincere in his methods. Not once has a charge of dishonesty been made against him. And with the same sincerity that commands the respect of his friends, Sheriff McCullough admits that if he is a little lenient with those in his custody is a crime, he is guilty. However, no crook or criminal has ever escaped as a result of this sympathetic leniency.

Tulsa has many Bible students. But few, if any of them, are more ardently devoted to the teachings of the Bible than Sheriff McCullough. Not many ministers of the gospel have a better or more thorough grasp of the Bible than Sheriff McCullough. He quotes more scriptures relating to any subject than Tulsa county's sheriff.

His familiarity with philosophical writings and philosophy also is often the amazement of his friends. One of his favorites is a quotation from the poem "Let Me Be a Friend to Man," which reads:

"I would not sit in the scorners' row
Nor hurl the cynic's ban;
Let me live in my house by the side of the road
And be a friend to man."

Not long ago there was considerable local turmoil over the manner in which the sheriff's office was handled. Much criticism was directed against Sheriff McCullough for alleged loose law enforcement and numerous accusations were made that the sheriff was "too easy" with those charged by law to his keeping.

Several meetings of late citizens were held; special deputies were appointed at the request of a committee as a result of these meetings. Sheriff McCullough was not averse to the appointment of these additional men; he acknowledged his office was short handed and that the constant flood of court actions required so much of his deputies' time that they could hardly find a spare moment to conduct raids, which he declared were necessary.

NAVAL CAPTAIN TO 'GO UP'

Examination Papers for J. G. Zeigler Are Sent to Pacific Fleet.

WASHINGTON, July 15.—Examination papers for Capt. J. G. Zeigler, United States Navy, who has been named by the navy selection board for promotion to the rank of rear admiral, have been dispatched to the commander of the Pacific fleet, it was learned at the navy department today.

After the papers are returned here and approved, the recommendation for Zeigler's promotion will be made to President Harding by the secretary of the navy.

TOPEKA MAYOR IS FREED

H. J. Corwin Exonerated in Court Decision of Neglect of Duty.

TOPEKA, Kan., July 15.—Mayor Herbert J. Corwin was completely exonerated on charges of neglect of duty in a decision handed down in court here today by Judge George H. Wilcomb, who recently heard the testimony in the ouster suit filed against the mayor.

Charges of dishonesty which had been made against Mayor Corwin in the complaint were dismissed with the comment that the evidence failed to substantiate them.

Immoral literature is burned by Berlin school authorities.

William McCullough Known As "Golden Rule" Sheriff

Thousands of citizens with such a declaration.

Never Spectacular.

Sheriff McCullough never has used spectacular or flamboyant methods, nor has he sought self-aggrandizement. His quiet disposition, which almost reaches the point of reticence, "runs deep." Perhaps this disposition to remain silent concerning his official activities is responsible for some of the feeling that he is not a strict enforcement officer. However, the records of the sheriff's office prove that his office has been alert every day—and almost every night—since he became sheriff.

And lawbreakers have discovered that Tulsa county's golden rule sheriff, although minus the bravado and the artillery that characterized the sheriff of frontier days, is making life in this county more unbearable for them with each passing day. Not a few of them have long since folded their tents and started for spots where official vigilance is less keen.

B. & O. SUES MACHINISTS

Suit in Equity Asking For An Injunction Is Filed At Cleveland.

CLEVELAND, Ohio, July 15.—A suit in equity asking an injunction against the International Association of Machinists, the International Brotherhood of Boiler Makers, the International Brotherhood of Blacksmiths, the Alliance of Amalgamated Sheet Metal Workers and the Brotherhood of Railway Carmen of America, and general and local officers of these organizations to the number of 2,400, was filed in federal court here today on behalf of the Baltimore & Ohio Railroad Co.

The petition alleges that these organizations, their officers and members are using "unlawful means to prevent the complainant in the performance of its duties as a carrier of interstate commerce."

A number of instances of violence including the killing of an employee at Hilliard, the kidnapping of Charles Margant, assistant car foreman at Sandusky, are alleged. Damages to the extent of \$25,000 are also asked.

MOTHER TAKES DEATH CALL

Infants Police of Accident in Which Her Boy, Unknown to Her, Died.

KANSAS CITY, July 15.—A signal light flashed on the telephone switchboard at police headquarters today.

Mrs. Edith Clemow, chief operator, answered the call.

"Send help quick—a little boy has been killed at Collins and Twelfth streets," said an excited voice.

Mrs. Clemow sympathetically efficient, went through the routine of her work, notifying the proper station and calling up the corner.

Then, turning to another operator, she said:

"I am relieved that my little boy is down town watching the circus parade. That call was in my neighborhood."

A few minutes later another report arrived.

"The little boy was killed when his mother's car ran in front of a street car. His name is Leonard Clemow, about 10 years old."

It was Mrs. Clemow's son.

FINDS POLITICS INTEREST WOMEN

Mrs. Lahman Brings Back Good Cheer From Counties in District

Republican women of Ottawa county are as interested as interested can be in the coming state election and respond readily to organization.

According to Mrs. Charles E. Lahman, republican state committeewoman for Tulsa county, who has just returned from a week's tour of Ottawa county as the guest of the Ottawa county republican committee.

Mrs. Lahman, in company with Mrs. W. H. Mason of Quapaw county vice chairman, and Mrs. Dennis Wilson of Miami state committeewoman for Ottawa county, made the rounds of towns in a wide swath from Miami and was instrumental in the forming of republican women's clubs in Miami, Fairland, Afton, Quapaw, Zimerville, Picher and Commerce. Carden women were also put in the way of having their own club.

The largest membership for a small town was in Quapaw where 15 women attended the first meeting and where the attendance was still larger at a second meeting held a few days later when the trio of republican women leaders, assisted by Mrs. Wilson, furnished the largest club of them all. A contest was begun between the clubs in different cities to determine which could enroll the largest percentage of republican women in proportion to the number of republican women in the city.

Mrs. Lahman also addressed an Ottawa county republican rally at Miami and other meetings in other cities. She has accepted the invitation of Hugh Webster, county chairman, and the county women officials to return if possible for a brief speaking tour during the fall campaign.

Mrs. Lahman said that while candidates of both parties were circulating freely through the county she had found the greatest spontaneous displays of support to be for John Fields for governor and Charles Schwabe for congressman.

The most amusing thing in the trip, Mrs. Lahman said, was when several democratic women of Quapaw invaded the meeting of republican women to find out how organization was affected.

MORE WAR TALK BY JAPS

Leading Paper Suggests Huge Fleets of Submarines and Airplanes.

TOKYO, July 15.—The Kokumin, a leading Japanese paper, today printed the first "war talk" that has appeared here since the arms conference in Washington, urging construction by Japan of a huge submarine fleet and a great air force.

"Victories in future wars will be possible through powerful forces of submarines and airplanes and abundance of gas," the article said in conclusion. "With the Japanese navy out to three-fifths the size of the United States, Japan should construct a powerful fleet of submarines in capital ships. Japan cannot match America. The position Germany occupied against England at the beginning of the World war is now Japan's position against America."

Jailed for Forgery, Says Arrest Result of "Double-Crossing"

By the Associated Press Staff Writer.

OKLAHOMA CITY, July 15.—W. H. Clark, against whom a complaint charging forgery was filed yesterday by W. T. Dodson, former secretary of the state board of education in connection with the alleged unlawful issuance of two state teacher's certificates gave himself up today, was arraigned at a preliminary hearing before a justice of the peace and held for trial in district court under bond of \$10,000.

On perfecting bail Clark described the charges as "one of the dirtiest double-crossings he had ever seen."

A similar information against a negro doctor named Wakefield was filed by Dodson in connection with the case. The negro is alleged to have paid Clark \$200 for the certificates which he procured for two of his own race.

Wakefield has not been found.
